

## Daily Challenge 1

Walk, look, notice and name.

Go for a walk wherever you can - in the garden or locally remembering the rules for social distancing. Alternatively find a virtual walk.

**LOOK!** Look carefully around you as you walk. I know this sounds obvious but you'd be amazed how many people don't actually see what's around them. **NO PHONES OUT!**

**NOTICE IT!** Notice stuff. Pick out nature landmarks on the way such as trees, flowers and plants. Try to remember them for a map when you return. You might take a note pad with you on the way to scribble or sketch what you see.

**NAME IT!** I love words and names. Can you find out the correct names for the plants and trees you notice? How could you find out? How many different types and names can you find for certain things? An example is the names given to apples - so many strange and weird ones. If you created your own apple, what would you name it as?

**DRAW IT!** You can make this as elaborate or as simple as you like. Alternatively, collect nature items on your walk to create a pattern in the style of Andy Goldsworthy. (Remember to use gloves to pick things up). Google him.
