

Day 14 Daily Challenge: Build your Shelter or Den.

Parents/Carers permission needed.

You can decide with your family what type of shelter you could build. Some of these ideas may not be possible at the moment and you may have to wait until a suitable time.

1. Using toys or action figures, design your den. You could make it out of small twigs or pencils or junk materials.

If you have a garden, you could make a den using branches and sticks in our garden. Alternatively, you could also get creative with string, sheets, pegs indoors.

2. Outdoors:

- Find a good branch to be the 'spine'. Attach or fit the top end to a notch in a tree or on top of a stump or good spot that will hold it in place.
- Build up the sides with smaller branches, close enough together so that they will hold piled up leaves or other debris.
- Now cover the entire structure (except the doorway) with leaves and debris you can find. Alternatively, use a sheet.

Indoors:

You could follow the above using a broom or something similar for the branch. Or you could tie a rope that would hold a sheet.
