

Daily Challenge Day 25 Games

Draw the Insect Game.

You could link this game with any animal.

1. Allocate a different number on the die to a different insect body part:

For example:

Roll 1 - head

Roll 2 - thorax

Roll 3 - abdomen

Roll 4 - wings

Roll 5 - antennae

Roll 6 - wild

2. Take it turns to roll the die and draw the corresponding body part.

3. The winner is the first to complete their insect.

Twenty Questions Game

1. One person chooses a person, place or thing.

For example: an insect, an animal, a famous person, a book character, a capital city, a vegetable...

Basically, anything can be chosen, but try to make the selected item something that can be reasonably guessed. It's no fun to play a guessing game that is impossible to solve!

2. After the person has chosen a person, place, or thing, the guessing begins! The other players take turns and ask "yes" or "no" questions in an attempt to figure out what the chosen answer is. That is, the questions must be answered with simply "Yes" or "No."

After each guess, keep track of the number of guesses that are used until it reaches the limit of 20.

3. Once 20 questions are used up, players may not ask any more questions. If a player correctly guesses the object before then, they become "it" for the next game and choose the next person, place, or thing. Otherwise, the answer is revealed.
