

Daily Challenge Day 28 Facts about Spitfires!

The Spitfire is the most famous plane of World War Two. Its ground-breaking design and superior specifications gave the British a decisive advantage fighting the Luftwaffe in the Battle of Britain.

The original design meant the plane could be upgraded with new engines and armaments. As the war progressed so did the Spitfire. After the original designer RJ Mitchell died in 1937, his successor Joe Smith developed the fighter to make it faster and more powerful.

Challenge:

Have a look on YouTube to see if you can find out more about spitfires.

Can you have a go at drawing one?

1. Draw a long oval for the body.
2. Draw two long wing shapes.
3. Draw three rounded triangles for the tail.
4. Draw the cockpit on top of the body.
5. Draw two cylinders on each wing to make the engines. Add a circle at the tip of each cylinder.
